

LaunchCode: **LaunchCode's Immersive CodeCamp Saint Louis Lead Instructor**

LaunchCode

LaunchCode is a non-profit solving the tech talent gap and paving new pathways to economic opportunity through apprenticeships and job placement in technology. We're seeking a hyper-motivated manager to lead NASA-safety-check-level-crucial elements of our Impact program and help us expand tech greatness in the **St Louis** area.

Are you a person who's always listening for connections? Got an earnest drive to open doors to opportunity for others and make an impact on their lives? Do people you meet on the bus or waiting in line often find themselves telling you their life story, and before you know it, you've discovered that your friend's aunt is exactly the person they need to meet to solve a problem? If so, then you've come to the right place.

Immersive CodeCamp Lead Instructor

LaunchCode's Immersive CodeCamp is an intensive, approximately 14-week full-time educational experience for those wanting to get started with a career in programming. The course curriculum is managed by LaunchCode and delivered by the Lead Instructor. The curriculum consists of coding and web fundamentals in Python, with additional job-ready skills taught in Java.

LaunchCode is seeking a highly motivated person who will serve as the Lead Instructor for this project with a class size of 25-35 students. The Lead Instructor will be responsible for executing curriculum, instructing students, and assisting students through the coursework.

Responsibilities

- Execution of all aspects of the course related to student learning, including lectures, review sessions, and coding practices.
- All course administration related to classroom activities, including grading, attendance, student evaluation, and student communications.
- Assist LaunchCode staff in organizing supplementary content, such as guest lectures, career workshops and student activities.
- Support each individual student, including identifying their performance problems and working with them to create pathways for improvement.
- Work with LaunchCode staff to manage student enrollment and learning status, and regularly report course and student progress.

Qualifications

- Experience teaching programming and related technical topics at the college level or equivalent
- Familiarity with software and/or web development in a professional setting
- A solid knowledge on current programming trends and best practices
- Involvement in building and deploying software applications from scratch
- A desire to work with driven individuals and help them succeed
- Strong written and verbal communication skills
- A strong, outcome-oriented work ethic
- Empathy for learners who are working hard to learn new skills
- An ability to thrive as an effective team member in high-intensity environments

Position Type

This is a full-time contracted position in St. Louis. The length of the contract will begin in October 2019 running approximately 15 weeks (1 week of prep time and 14 weeks of delivery).

Salary

Salary is commensurate with experience and skills.

To Apply

Apply online by filling out the form above. No phone calls, please. References should be available upon request. Applications will be accepted on a rolling basis until the position is filled. We highly recommend applying as early as possible for the best chance of moving forward. The employment eligibility of all new hires will be verified using E-Verify.

We Heart Diversity

LaunchCode supports and fosters leadership from underrepresented communities. We strongly encourage folks from immigrant communities and communities of color, as well as those who identify as women, LGBTQ or under-resourced to apply. LaunchCode is an Equal Employment Opportunity Employer. Program and employment policies of LaunchCode are nondiscriminatory in regard to race, color, gender, religion, age, national origin, disability, veteran status or sexual orientation.
